Questions for Student Farm Expansion

1. Can you tell me if there is any landscape irrigation involved in the Expansion of Center for Agrarian Learning project?
 - a. Currently there are no plans for water irrigation. The only water related work is that associated with the extension of 2 additional spigots.
2. I'm inquiring about the Expansion of Center for Agrarian Learning Student Farm - Landscaping Services project proposals due on 11/11/21. Is there a cost estimate/range available for this project, if so, would you please forward it to me? Thank you so much, I truly appreciate it.
 - a. No project budget had yet been established. Only the parameters of what the project should include per the bid specs.
