

» CAREER TRAINING

The following classes are offered through in-person, remote (Zoom), or online instruction. Registered participants will receive location or access information by email within 24-hours before a class begins. For updated class offerings or to register, visit www.mchenry.edu/careertraining or call (815) 455-8588.

CONSTRUCTION/FLAGGER

Flagger Certification

The National Safety Council (NSC) Work Zone Flagger Program incorporates classroom instruction, hands-on training and a flagging skills test to teach roadway personnel how to minimize confusion with standard flagging procedures and provide safe passage of traffic through and around Temporary Traffic Control Work Zones. This four-hour NSC Certification program meets federal industry guidelines and includes a manual on Uniform Traffic Control Devices. This certificate is valid for three years. Participants will learn:

- Key flagging procedures
- Critical do's and don'ts for flaggers
- How to maintain safety for themselves, roadway users, and their crew

FOOD SERVICE SANITATION

ServSafe Food Protection Manager Certification

This 8-hour course uses ServSafe (an ANSI-CFPM accredited exam provider) which meets the Illinois Department of Public Health requirements. The ServSafe Manager Certification verifies that a manager/person-in-charge has sufficient food safety knowledge to protect the public from a foodborne illness. All food service operations that prepare and serve food are required to have a certified food safety manager on the premises when food is being handled. The course covers all critical principles including personal hygiene, cross-contamination, time and temperature, receiving and storage, food safety management systems, training, cleaning and sanitizing. The certification is valid for five years. You must arrive promptly by 8:00 a.m. Book is included in class fee. Bring photo ID to class.

EKG Technician

You'll study basic to advanced concepts in EKG. These concepts include the basic cardiac anatomy and physiology, proper lead placement for a 5- and 12-lead, technical aspects of the EKG machine and how to calculate heart rate, how to interpret a rhythm strip, and several advanced concepts working with the 12-lead EKG machines. You'll also learn how to prep a patient for EKG monitoring and troubleshooting EKG artifacts. This training will allow you to assist the physician with diagnosing myocardial infarction, cardiac arrhythmias, and heart rhythm irregularities. EKG machines are used in physicians' offices, hospitals, clinics, and other healthcare facilities. The fee for this class includes all books, materials, and the cost of the initial certification exam to be taken at the end of class. Asynchronous work to take place online (recorded Zoom lectures, quizzes, and assignments).

Fee: \$999

Medical Assistant Capstone

Review and assemble the skills learned in your prerequisite courses (Certified Nursing Assistant, Electrocardiogram Technician, and Phlebotomy Technician) and train for working under the supervision of a Practice/Operations Manager or their designee to provide the following duties: scheduling appointments, patient intake and care, routine diagnostic and recording procedures, maintaining medical records, preparing patients for examination, drawing blood, medicine administration, first aid, recording vital signs and medical histories. Coursework will include basic anatomy and physiology; medical terminology; medical law and ethics; patient psychology and communications; medical office procedures; and clinical diagnostic, examination, testing, and treatment procedures. This course prepares you to take the National Healthcareers (NHA) Certified Clinical Medical Assistant (CCMA) certification exam. The cost of this exam is included in your course fee. You will have asynchronous work in addition to the live class on Mondays. Students will be expected to complete assignments, view recorded lecture, participate in discussion boards, and take quizzes online outside of scheduled class lecture time. After successful completion of the course, you will be required to complete a two-week, 40-hour externship prior to taking your Certified Clinical Medical Assistant (CCMA) exam through National Healthcareers (NHA).

REAL ESTATE/HOME INSPECTION

Real Estate Broker Pre-Licensing Series

Real Estate Sales Broker Pre-License Topics

Study the broad field of real estate with an emphasis on license law, real property, agency structure, buyer and seller relationships and counseling. We'll also explore Illinois law, Federal law, marketing and advertising, market analysis and appraisal, financing, contract knowledge, independent contractor/employee agreements, and occupational disciplines. This blended-home study course satisfies 75 hours of the 90 hours of instruction required by the Illinois Department of Financial and Professional Regulation to become a Real Estate Broker. This course will almost always be held concurrently or consecutively with Real Estate Broker Pre-License Interactive course. Successful completion of this course and the Real Estate Broker Pre-License Interactive class qualifies you to sit for the Illinois Real Estate Broker Examination.

Real Estate Sales Broker Applied Real Estate Principles—Interactive

We'll cover role play, case study examples, demonstration examples, and "what-if" situational examples in such areas as listing presentation, agreement and disclosure, writing purchase agreements, market analysis, seller net sheets, confronting fair housing violations/seller or buyer, distressed property issues, antitrust scenarios, and inspection/repair issues. This course satisfies 15 hours of the 90 hours of interactive/situational training required by the Illinois Department of Financial and Professional Regulation to become a Real Estate Broker.

VETERINARY

Veterinary Assistant

Veterinary assistants have been identified by the U.S. Department of Labor as one of the fastest-growing professions. Vet assistants work with veterinarians in private practice, animal shelters, animal control facilities, pet stores, kennels, and veterinary drug companies. Working with veterinarians and veterinarian technicians, they help provide medical care to sick and injured animals. This course includes 150 hours of classroom instruction and 100 hours of mandatory clinical externship. Times of clinical externships will vary based on availability and hours of the clinical sites. Students in this course will be expected to set up their own externship hours with an approved veterinary clinic. Please contact the Career Training office at (815) 479-7879 or careertraining@mchenry.edu with any questions prior to enrolling. Successful completion of the class includes successful completion of the clinical.
